

Feedback Process

A well conceptualized feedback system is practiced in the institution. The feedback is taken from all the major stakeholders every year, that provides suggestions and the needful development for the future plan of the institution. It also provides input for the understanding of ground level reality of the college regarding infrastructure, curriculum delivery, and facilities provided on the campus.

A feedback committee is made for the systematic well planned work. The questionnaire for all the stakeholders are framed for program planning, curriculum design, syllabus revision for the students. The feedback is obtained from the major stakeholders asking the suggestions about facilities, structure and development Plan. Usually the responses are understood and taken into consideration for effecting working.

Feedback Committee:

1. Asst. Prof. Palve Ramnaath
2. Asst. Prof. Gadekar Vithal
3. Asst. Prof. Dharmadhikari Jyoti

Feedback from stakeholders:

- Alumini
- Student
- Parents
- Employer

Mode of feedback:

Before pandemic, all the feedback were it taken manually, after year 2020-21, feedbacks are collected manually and online too. Google form link was provided to all the stakeholders. However, we remained flexible in collecting feedback.

Alumini feedback:

A survey is done through feedback system, the college provides questionnaire to all the alumni students. The forms are collected once in a year. The data is analysed and used for action taken report.

Employer feedback:

The employers are provided the questionnaire and asked to put their suggestion while answering feedback. Feedback is collected annually, analysed and use to strengthen our program.

Student feedback:

Students are key stakeholders and play more outstanding role in the program. The students' feedback is considered to introduce teaching learning methodologies. Their input help the program to establish the elective courses, value added courses, certificate courses and research work to meet current trends.

Students feedback is the questionnaire provided on Google form and manually too. The data is collected annually and analysed. The students, particularly final year students, are supposed to give their inputs through the questionnaire. The response of the feedback is analysed that helps to improve teaching learning process, and effective academic delivery.

Parents feedback:

Parents Feedback:

Parents are more keen about their children to have better career and higher education. The feedback is a questionnaire that covers the areas like curriculum, material and college activities. The feedback is taken during the parents-teacher meet conducted every year in the college. Feedback is taken annually and analysed. Suggestions from the feedback are taken into consideration to prepare Future plan of the college.

Action Taken Report:

All the feedback those are collected annually and analysed through a feedback committee. The responses, suggestions and inputs are gathered and generalized. The suggestions are prepared and sent to the management via principal.

The college development committee understands the suggestion. The college development committee holds a meeting and instructs the principal for the further development.

The principle then takes the needful steps. The feedback system is a very effective administrative work of the college, that helps us to develop so as to cope up with new challenges of the world. Specially, the feedback helps to promote the students for better recruitment and better administration.
